Overview

Abstract

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Lay Summary - English

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Project Title - Italian

Project Title ITA Demo multiround

Lay Summary - Italian

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Coordination and Management - Multicenter Studies

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Role and Contribution of Partner(s) in the Project - Multicenter Studies

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Type of Research

Disease Name

Mesh Terms

Mesh Term Demo1

Mesh Term Demo 2

Research Type

Animal model creation / study, Biochemistry, Bioinformatics study, Biomarker development / identification, Biophysics, Biorepositories development / creation, Biotechnology innovation / medical device, Cell Biology, Cellular models creation / study, CRISPR-Cas9 study, Databases & Registries development / creation, Developmental Biology, Diagnostic tool / protocol development, Drug repurposing, Epidemiological study, Epigenetic study, Experimental therapy "ex vivo", Gene expression profile, Gene search, Genotype-phenotype correlation, Human physiopathology study, In vitro functional study, In vivo functional study, Induced pluripotent stem cells (iPS) creation / study, Medical device / instrumentation development, Molecular Biology, Mutation analysis, Mutations search, Natural history study, Observational clinical study, Outcomes measures development, Pharmacology, Physiology, Platform, Pre-clinical cell therapy, Pre-clinical drug development / Drug delivery, Pre-clinical gene therapy, Gene Editing, Therapeutic clinical trial, Therapeutic Approach_Advanced therapies_Cell therapy, Therapeutic Approach_Advanced therapies_Gene therapy, Therapeutic Approach_Advanced therapies_Tissue/organ engineering, Therapeutic Approach_Biologicals_Oligonucleotides, Therapeutic Approach_Biologicals_Proteins/peptides, Therapeutic Approach_Small molecules / Small molecule screening, Transplantation, Vector Design and Development

Area of Research

Chromosomal anomaly, Genetic bone disease, Genetic cardiac disease, Genetic developmental defect during embryogenesis, Genetic endocrine disease, Genetic eye disease, Genetic gastroenterological disease, Genetic hematologic disease, Genetic hepatic disease, Genetic immune disease, Genetic infertility, Genetic muscular disease, Genetic muscular disease\Muscular dystrophies, Genetic muscular disease\Myopathies and cardiomyopathies, Genetic muscular disease\Myotonic disorders, Genetic neurological disorder, Genetic neurological disorder\Ataxias, Genetic neurological disorder\Epilepsy and Seizures, Genetic neurological disorder\Intellectual Disabilities, Genetic neurological disorder\Neurodegenerative diseases, Genetic neurological disorder\Neuromuscular diseases, Genetic neurological disorder\Polyneuropathies, Genetic neurological disorder\Prion diseases, Genetic odontologic disease, Genetic otorhinolaryngologic disease, Genetic renal disease, Genetic respiratory disease, Genetic skin disease, Genetic systemic or rheumatologic disease, Genetic tumor / neoplasia, Genetic urogenital disease, Genetic vascular disease, Inborn errors of metabolism, Other (Please specify in the Note section), Undiagnosed diseases with proven genetic origin

Research Steps

Genetic studies, Studies on mechanisms, Therapeutic approaches in vitro, Therapeutic approaches in vivo, Therapeutic clinical trials, Diagnostic, observational and palliative trials

Research Proposal

Stage of Development

Indicate starting and ending stages of development of the proposed project, referring to the Telethon Development Pathway (TDP)

Refer to the call text for further details. Please, take into account the following:

Track Basic Research

0. *New Knowledge*
1. *Research on mechanism/the disease*
2. *Target identification*
3. *Target Validation*

Track preclinical PoC

4. *Therapeutic approach identification*
5. *Preclinical Proof of Concept*

Starting Stage : Research on mechanism/the disease

Ending Stage : Research on mechanism/the disease

Please, justify your choices

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Research Plan

Hypothesis, Background and Rationale

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Preliminary Results

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Aims and Experimental Plan

Aim Title: Aim 1 Demo

Brief Description It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Experimental Plan It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Expected Outcome It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Aim Title: Aim 2 Demo

Brief Description It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Experimental Plan It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Expected Outcome It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Feasibility, possible Pitfalls and alternative Approaches

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Significance and Innovation

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Possible evolution of research, if successful

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Unmet medical need and relevance to Fondazione Telethon's mission

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Background Intellectual Property

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

GANTT chart

Please upload a GANTT chart describing the timeframe foreseen for the different specific aims and their components (.pdf file max 50 MB)

[Gant.pdf](#)

Cited Literature:

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Ethical Documents

Human Subjects

If the grant is approved for funding, funds WILL NOT BE PROVIDED until the pertinent Ethical Documentation has been obtained. Please activate in due time all necessary procedures to obtain this approval in accordance with the relevant Italian laws. For clinical studies, please refer to <https://www.aifa.gov.it/modulistica-sperimentazione-clinica>.

Fondazione Telethon ETS (and/or its Alliance partners, in case of Joint Calls, Initiatives) reserves the right to ask for a copy of all the relevant approval documentation

Indicate whether the study involves (consider both Applicant and collaborator(s) activities):

Human samples not requiring an Ethical Committee approval (e.g. samples from external biobanks, commercial cell lines)

Please indicate the type/origin of these samples

(e.g., the external biobank)

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal

Please, specify the origin of the samples. If the study involves patient-derived samples, please include a summary of patients' details (e.g., age, sex, origin, genetics, ...)

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English

Vertebrate Animals

If the grant is approved for funding, funds WILL NOT BE PROVIDED until the pertinent Ethical Documentation has been obtained. Please activate in due time all necessary procedures to obtain this approval in accordance with the relevant Italian laws.

Fondazione Telethon ETS (and/or its Alliance partners, in case of Joint Calls, Initiatives) reserves the right to ask for a copy of all the relevant approval documentation.

Indicate if the study involves the use of vertebrates or not.

- Yes - I confirm that all current rules and regulations regarding animal treatment will be strictly adhered to.
- No

Please indicate if the Authorization is already in place.

- Yes
- In progress
- No
